

ATK

Platforms · Systems · Custom 3D

MISSION

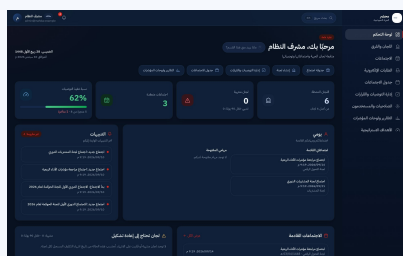

We design, build and run platforms, dashboards, AI systems and custom parts for Saudi organizations, with written scope, staged acceptance, and support that has a name behind it.

WHAT WE DO

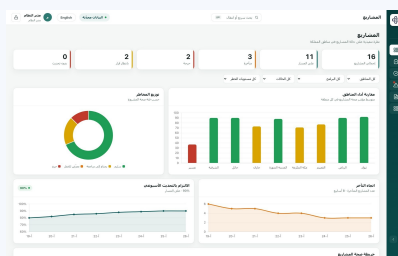

Software products we license: Mahdar, Shahin, DutyDeck, Masar and Maktab.

Custom applications, systems integration, hosting, and AI and data systems.

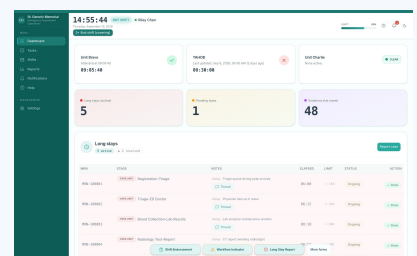

Custom parts, modeled, 3D printed and finished in-house.

What we offer

Software

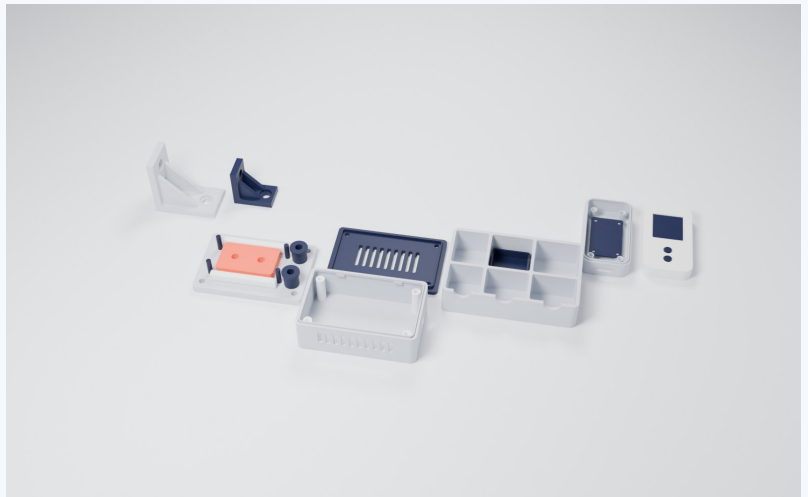

- User interface, user experience and customer journey design
- Application development
- Game application development
- Immersive technology (VR and AR)
- Robotics technologies
- Systems integration
- Hosting services for websites and applications
- Publishing of ready-made software
- Operating systems

AI and data

- Artificial intelligence technologies
- Big data and data science
- Distributed ledger technologies

Custom parts

- 3D printing

HOW WE WORK

01

Plan

We discuss your goals, assess what is feasible, and outline what the project will include, along with any limitations.

02

Demo

We present a working demo focused on your requirements, so you can explore the proposed solution and give feedback.

03

Agreement

Both parties agree on the project scope, deliverables, timeline and acceptance criteria, with the terms recorded in the contract.

04

Delivery

We deliver the product and provide practical training so your team understands its features and uses it effectively.

05

Support

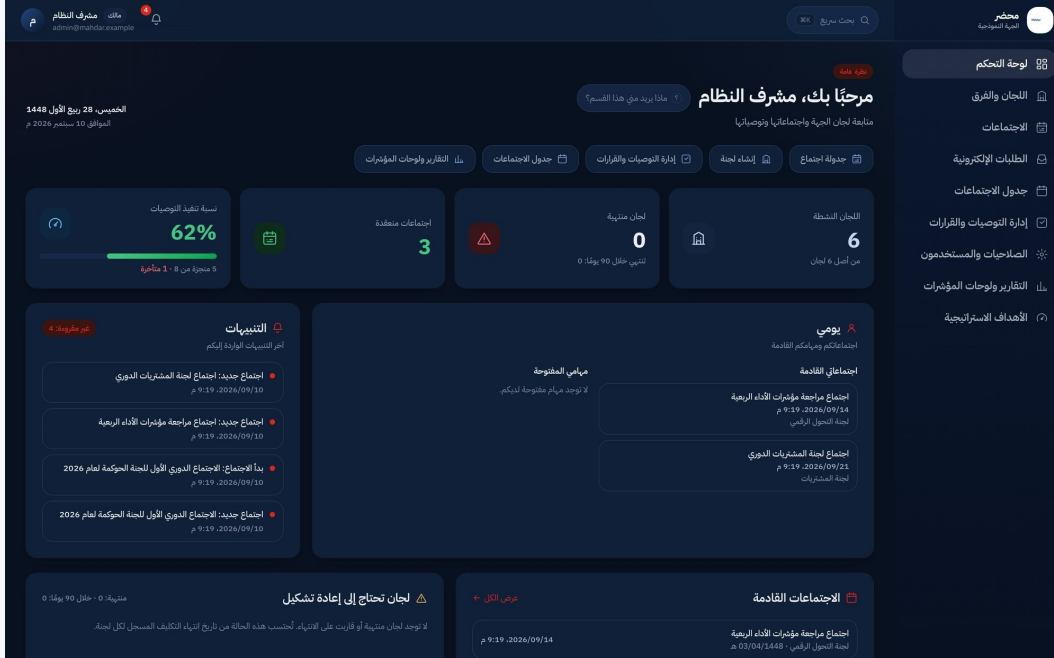

We provide support as agreed and gather your feedback to identify where the finished product can be improved.

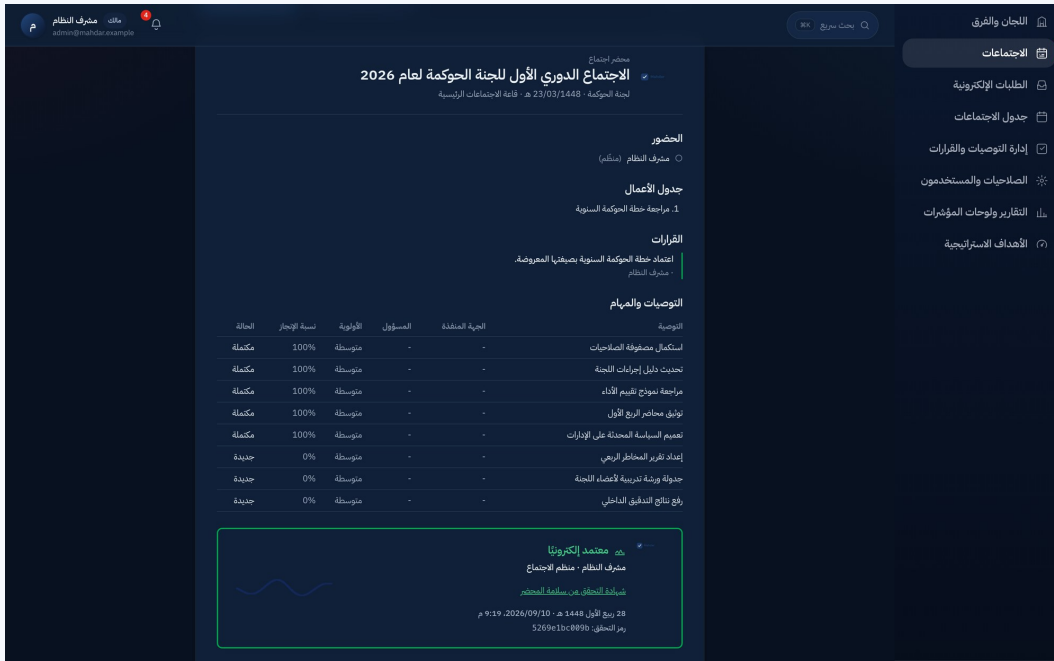

Committees, meetings, minutes and follow-up for an authority or a company board.

What it replaces

Meeting invitations by email, minutes in Word, decisions in a spreadsheet that goes stale, and someone chasing everyone before every meeting.

PRODUCT SCREEN SAMPLE DATA Arabic-first product; interface shown in Arabic.

Minutes view: agenda items, decisions, attendance and the approval trail on one record.

Committees and membership

Committees, sub-committees, terms, quorum rules and member roles, with a full history.

Meetings and minutes

Agenda, attendance, minutes drafted in the meeting, an approval flow, and approved minutes as a PDF with a verification code.

Decisions and tasks

Every decision becomes a tracked task with an owner and a due date, rolled up into reports and performance measures.

Shahin

BY ATK

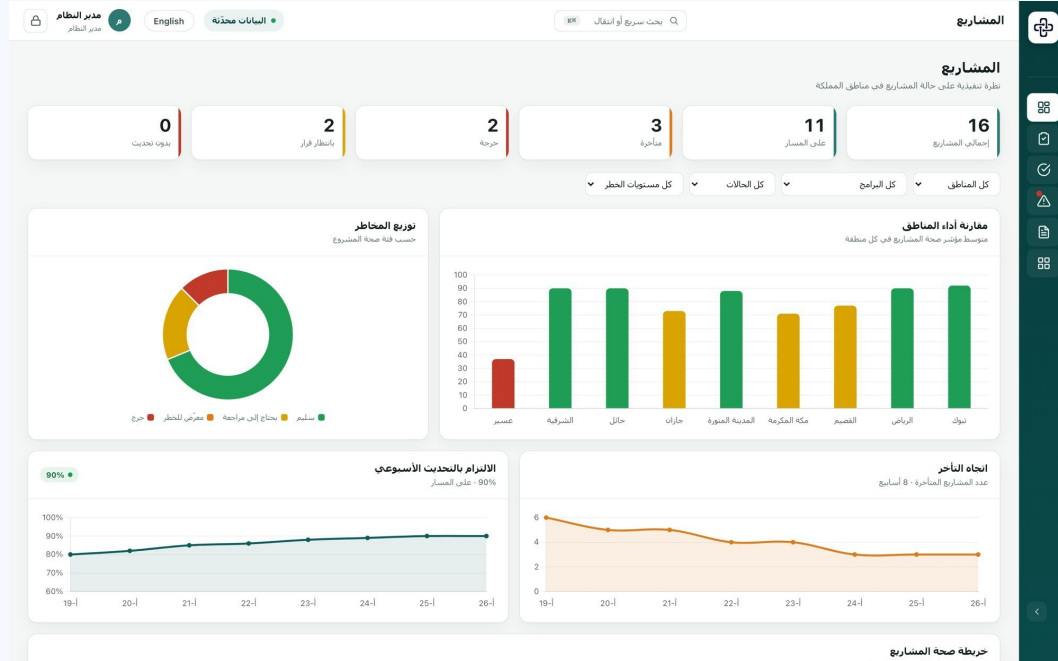

شاهين

READY FOR PILOT

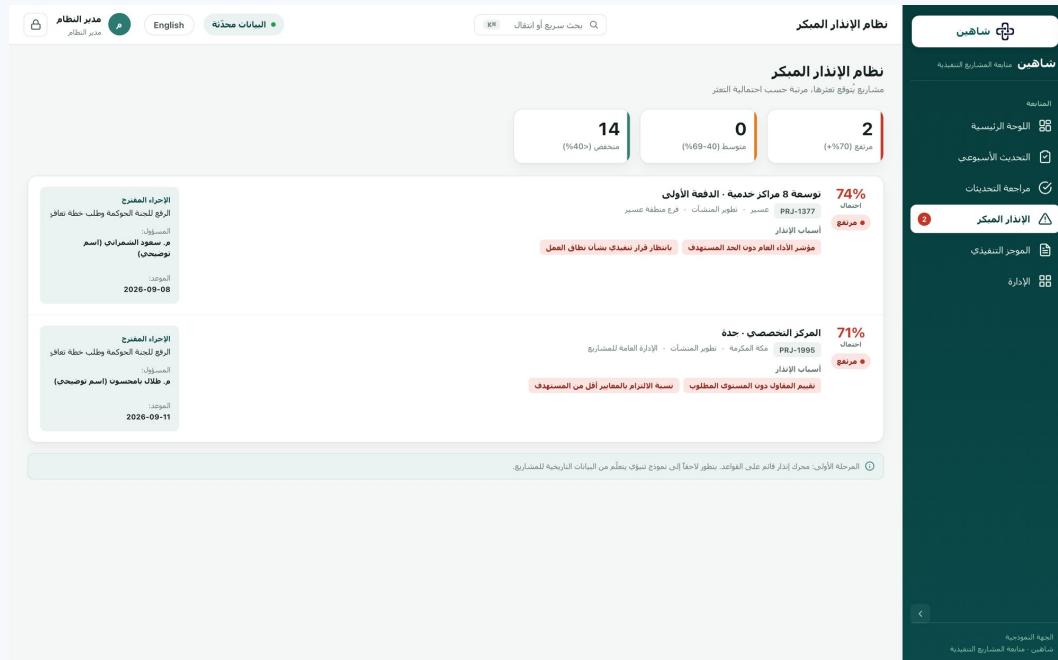

Executive project oversight: each project sends a weekly update, and a dashboard, early warnings and an executive brief come out of it.

What it replaces

The spreadsheet tracker, the hand-built weekly slide deck, and the status-chase email.

PRODUCT SCREEN SAMPLE DATA Arabic-first product; interface shown in Arabic.

Early-warning screen: rule, reason and the update that triggered it.

Status dashboard

Portfolio health by program and region, a health score per project built from schedule, budget and update freshness, and a critical-projects table.

Early warning

Fixed rules flag slippage, budget drift and stale updates, each with a stated reason in Arabic and English.

Executive weekly brief

Auto-composed brief for print and export, built only from approved updates.

DutyDeck

 BY ATK

DEMO AVAILABLE

Duty management for units that run on shifts and handovers: rosters, endorsements (the signed shift handover), long-stay tracking and reports.

What it replaces

The WhatsApp handover, the paper roster and the end-of-shift report typed from memory.

The dashboard displays the following information:

- Unit Bravo:** Attended at 09:05:40, 09:05:40. Status: Green checkmark.
- TAHO8:** Last updated: Sep 8, 2026, 05:30 AM (2 days ago), 08:30:00. Status: Red X.
- Unit Charlie:** None active. Status: Green checkmark.
- Long stays (active):** 5.
- Pending tasks:** 1.
- Violations this month:** 48.
- Long stays table:**

MRN	STAGE	NOTES	ELAPSED	LIMIT	STATUS	ACTION
MRN-100001	OVER LIMIT Registration-Triage	Delay - Triage queue during peak arrivals	06:00	< 15m	Ongoing	Done
MRN-100002	OVER LIMIT Triage-ED Doctor	Delay - Physician tied up in resus	06:15	< 45m	Ongoing	Done
MRN-100003	OVER LIMIT Blood Collection-Lab Results	Delay - Lab analyzer maintenance window	08:10	< 60m	Ongoing	Done
MRN-100004	OVER LIMIT Radiology Test-Report	Delay - CT report awaiting radiologist	08:45	< 10m	Ongoing	Done

PRODUCT SCREEN SAMPLE DATA

The screen displays the following information:

- Shift endorsement & handover:** DAY SHIFT - 2026-09-10. Status: LIVE.
- Shift context:** You are covering this shift. The endorsement will be filed for Riley Chen with you recorded as the submitter. Rostered DM: Riley Chen. Submitting as: Sam Carter. Next DM: Dana Whitfield.
- Shift summary:** AUTO-COLLECTED. FORMS: 0, VIOLATIONS: 4, LONG STAYS: 2, TASKS DONE: 0, TASKS PENDING: 1.
- ACTIVE LONG STAYS AT HANDOVER:**

MRN	STAGE	ELAPSED
MRN-100001	Registration-Triage	06:24m
MRN-100002	Triage-ED Doctor	06:39m
MRN-100003	Blood Collection-Lab Results	08:34m
MRN-100004	Radiology Test-Report	09:14m
MRN-100005	Referred Team Assessment & Decision	13h 14m

PENDING TASKS THE NEXT DM INHERITS: Chase cardiology consult for MRN-100005. URGENT.

Additional notes: Anything else for the record...

Issues & delays:

Buttons: Cancel, Review & submit.

Shift endorsement: bed map, handover notes and the acknowledgement chain.

Endorsement and handover

Outgoing duty manager endorses the shift, incoming acknowledges, with cover flow, drafts and overdue alerts.

Long-stay tracker

Time thresholds for each stage of a patient's stay, from arrival to referral, shown green, yellow and red on a live board.

Roster and reports

Schedule builder with swap requests, and dashboards for performance and violations.

Intake for internships, training and volunteering: a public application page and a staff portal that issues certificates.

What it replaces

Applications by email, a spreadsheet of applicants, certificates typed by hand and no way to verify them.

Applicant status page: reference number, stage tracker and application details.

Applicant gate

Public bilingual application with document upload, status tracking and reference numbers.

Staff portal

Role-based review, placement, attendance and program management.

Verified certificates

Bilingual certificate PDFs with a verification QR code that opens on the organization's own domain.

Maktab

BY ATK

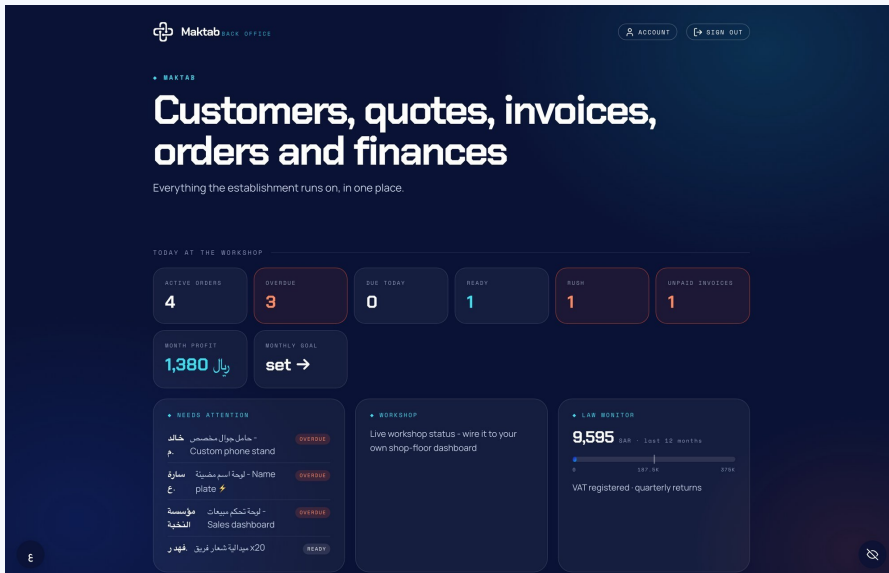

مكتب

IN DEVELOPMENT

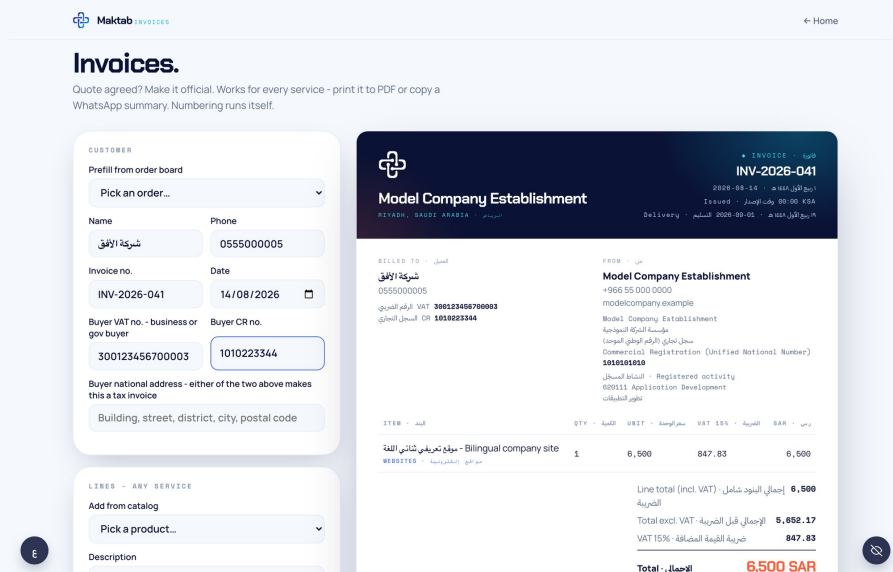

Back office for a small establishment: customers, quotes, tax invoices, orders and finances on one screen.

What it replaces

Invoices in a template, customers saved in a phone, orders in chat, and the month's numbers reconstructed at month end.

PRODUCT SCREEN SAMPLE DATA

Tax invoice detail: line items, VAT, identity block and payment status.

Customers and quotes

Customer records, quotes with a price book, and conversion to orders in one click.

Tax invoices

VAT-compliant tax invoices with the establishment's identity, sequential numbering and the QR code required by ZATCA Phase 1.

Orders and finances

Order board by stage, monthly revenue, open balances and overdue invoices.
